

TEAMWORK is working together with other people to achieve a goal. Think of a sports team (it's right there in the name!) No single person on the team can win the game by themselves, no matter how good they are. It takes the team working together to reach their goal (winning the game). However, TEAMWORK is a big part of life outside of sports. Many times there are things we want to/have to do, which are too big to accomplish on our own.

For this month's assignment: work together with at least two (2) other students from class to plan a project of your own; it can be ANYTHING you want to do as a team!

1) First of all, think of a NAME for your team: \_\_\_\_\_

2) Who are the PEOPLE on your team? \_\_\_\_\_

3) What is the PROJECT you would like to do - it can be ANYTHING you can think of (it doesn't even have to be realistic, but it should be something you could accomplish with just your group!): \_\_\_\_\_

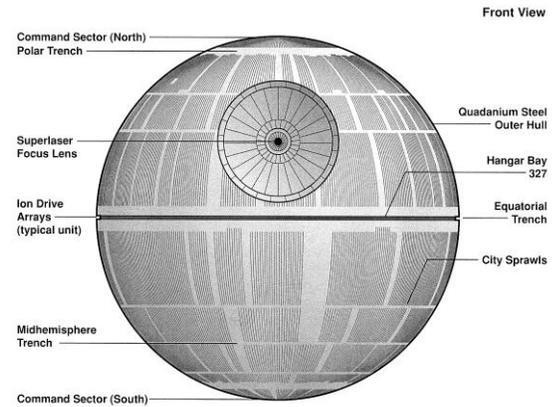

4) What JOBS need to be done in order for your team to finish your project? Don't worry about assigning jobs yet, you'll do that in just a bit: \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

5) Now work with your team to decide who does what job. It is okay if some people have more than one job, but think about who would be best at which jobs, as well as being fair about making sure that everyone is doing their fair share

Note: You cannot build the Death Star. That's my project...

Name	Job(s)

6) How do you think your team would do in completing your project? \_\_\_\_\_

7) Would it help to have a bigger team? \_\_\_\_\_ If so, who would be on it, and what would their job(s) be? \_\_\_\_\_

\_\_\_\_\_
