

We probably all have at least some idea what CITIZENSHIP means.

Try to define it without using the word "citizen": _____

So, think about people you may know (or at least know of) who are good citizens, and what they do that qualifies them as good citizens

Name	What they do to be good citizens

Name some things you can do to be a good citizen. Think of the definition you gave for CITIZENSHIP above. What are some things you can do to show CITIZENSHIP in your community?

- | | |
|----------|----------|
| 1. _____ | 5. _____ |
| 2. _____ | 6. _____ |
| 3. _____ | 7. _____ |
| 4. _____ | 8. _____ |

Now, before this homework is due (😊), do at least four of those things. On average, that's two per week. Think about the things you accomplished, and write down how you think they benefitted your community

CITIZENSHIP is about a balance. We have duties as a citizen that we are expected to perform in order to retain certain...things.

What are some of these duties we are expected to perform?

And what do we get in return?
